This 6-CD-set presents the complete recordings with flute music by Joseph Haydn made by **Barthold Kuijken** on the Accent label. Always playing historically accurate transverse flutes, on these CDs (which contain trios and quartets in various combinations), he teams up with his brothers Sigiswald and Wieland, his nephew Piet Kuijken and other fine early music specialists. The recordings were made between 1978 and 2014 and are presented together for the first time. An opportunity not to be missed of listening to the legendary Kuijken family in this delicate late 18th-century repertoire.
