PROGRESS Works by Dorman, Beethoven and Herzogenberg Ensemble 4.1	ARS38271	PC: 01S
	1 SACD-Hybrid 2017	

Voilà, the **ensemble 4.1!** The only '*Piano Windtet*' in the world: four wind soloists and one pianist dedicate themselves full of enthusiasm to this wonderful classical but neglected musical genre, which is mostly cultivated, if at all, by ad hoc ensembles. In addition to Beethoven's classic, a rarity by Herzogenberg and the world premiere recording of a new composition can be heard here.
