In German-speaking countries, carolers go from door to door every year between Christmas and Epiphany. They collect donations for children in need and, with their songs, carry the blessing of God into every house. Children and young people from choirs belonging to the German Pueri Cantores Choir Association have sung a total of 25 carols for this CD, including established classics such as “Stern über Bethlehem”, but also surprises such as the “Sternsinger-Rap”. This CD heightens the joyful anticipation of carol singing, making it easier to learn the new songs as well as motivating people to sing.
