This album by COVIELLO CLASSICS with wonderful winter and Christmas stories (among others by Eduard Mörike, Theodor Fontane and Joseph von Eichendorff) as well as atmospheric Christmas zither music is excellently suited to meet the nowadays unfortunately sometimes hectic and stressful Christmas season with a moment of peace and contemplation. As much as some people perceive the zither mainly in folk music, they will be all the more surprised by the manifold possibilities of this instrument, as they can be heard on the present recording. With its fine and atmospheric sound, the zither interweaves with the texts in an almost ideal way.
