

LOS LIBROS DEL DELPHIN
BY **LUYS DE NARVÁEZ**

Los Libros del Delphin de música para vihuela, by composer and vihuelist Luys de Narváez, is one of the finest monuments of Iberian music of the Spanish Siglo de Oro. Xavier Díaz-Latorre here presents a splendid version of the complete works for vihuela solo by de Narváez; the beauty of the composer's counterpoint, the clarity of his part-writing and the sensitivity of the performer cannot leave the listener unmoved.

For this recording, Xavier Díaz-Latorre has used the vihuela *La Aldonza* by the luthier Carlos González (Aguadulce, 2017) and the vihuela *L'Hollandaise* by the luthier Patirck Hopmans (Sant Cugat Sese Garrigues, 1997), both strung entirely with gut strings.
